All the lights on the right-hand side of Hylton Terrace will be removed because they were disconnected many years ago when LED's were put on the left-hand side. The roundabout light is not working again and a report has been logged with street lighting for repair. Cllr Searl stated that Street Lighting Team have advised him that the lights outside of the support living accommodation in Bedlinog do not belong to MTCBC. Cllr Preston stated that the landlord is Hafod Housing and Cllr Searl advised that he would contact them to advise of the broken lights.</p> <p>ACTION: Cllr Searl to contact Hafod Housing to discuss broken light issue.</p> <p>MTCBC have been unable to source quotations to date for the fencing to be extended to help control the anti-social behaviour at the Kick-about area. The Clerk has engaged with a local builder who is obtaining prices for the Community Council.</p> <p>Street Lighting have confirmed that some errors have been made with the Christmas Light installations and will be working to rectify these this week.</p>

		<p>The consultation has ended for the sites identified for works as part of the Local Places for Nature grant. MTCBC had advised that as it is private land, they do not have a statutory obligation to repair the fence, but it is a priority area to look for external funding.</p> <p>RJ has investigated the wall repair opposite the recreation ground, as it is private land then the owner would need to seek legal advice and issue permission/licence to the community council to go ahead and repair the wall. There are no principal powers and duties that allows us to pay for a wall repair on private land. We could look at Section 137 but need to consider what benefits this would bring to the community.</p> <p>ACTION: RJ to contact landowner to discuss their plans for repairs.</p> <p>The Terms of Reference has been drafted for the Staffing Committee. This land is the responsibility of the Community Council and we have been informed that the baskets require planning permission, so the Community Council is in breach of its licence for allowing this work to commence. RJ has contacted the resident at 56 Hylton Terrace who confirmed that he carried out the work – this was because the drain/culvert in the area keeps flooding and he has lost some of his garden due to land erosion etc. MTCBC have advised that the lease can be amended if the resident is interested in purchasing that part of the land and can then apply for retrospective planning permission. A Council decision was needed to be made as to whether Council were happy for the lease to be amended and for this part of the land to be excluded from the lease. Cllr Jago proposed</p>

The resident stated that the existing facilities are run down and in need of repair and/or upgrading. Cllr Jago advised that she would take this forward and was aware of some monies available for upgrade work to parks.</p> <p>ACTION: Cllr Jago to update progress at next Council meeting.</p>
