What is the reason for the underspend • If there is an underspend at the end of the year in relation to ICES does the money stay with the local authority • There is currently a very large overspend in Children's Residential Placements, wouldn't it be better to put more funds into the budget at the start to reduce the chance of further large overspends in the future • Can the budget tables include the figure that the budget was set to at the start of the year so that the committee can better understand the figures • In relation to 7.3 of the report it mentions additional services through the integrated care fund and the transformation fund to allow innovation to continue across the region which includes developing phase two stay well at home programme. 		<ul style="list-style-type: none">• In relation to Children Looked After and positive results from GCSE etc there is a lack of figures. This would be useful to see how many sat exams and what the results were as this would allow us the celebrate the achievements and also see where the gaps are if exams were not sat or if the results were very low.• Item 5.7 of the report states that in 2021 you aim to place 4 care experienced young people in Council settings to undertake work experience. Has this happened and can you provide details of where this work experience is taking place in the Council• A requested was made that future reports include a more detailed breakdown to show what settings the work experience is taking place in• In relation to the Pathway to Work Scheme, can you confirm if Merthyr Tydfil County Borough Council have signed up to the Governments Kick Start Scheme for young people. The scheme provides 100% of funding for a six-month placement for 25hrs per week which would be ideal for our Care Leavers.• In relation to The Pathway to Work Project is it a rolling programme as it isn't clear. It shows in year one there are four work experience placements, so are there four new placements in year two or only the traineeship available• The report states that there has been a decline in face-to-face contacts in line with the Welsh Government restrictions, is this have a detrimental effect on the scenario of transition planning for our young people• Can Social Services push to receive the support of the Local Authority as a whole to be able to provide job opportunities for the young people of Merthyr Tydfil• How strong are the links with Council Departments in relations to creating job opportunities and is there something that can be done to make them even stronger moving forward <p>The Cabinet member for Social Services addressed the committee and highlighted the good work that is being carried out in relation to The Pathway to Work and the excellent challenges put forward by the committee members in their questioning of the report.
