2. Sustainable Development Principles (The Five Ways of Working)

Does your proposal demonstrate you have met the sustainable development principles (five ways of working)?

The Well-being of Future Generations (Wales) Act 2015 requires the Council to consider how any proposals improve the social, economic, environmental and cultural well-being, whilst also looking to the future, planning for the long term and ensuring that we do not compromise the ability of future generations to meet their own needs. Please consider the national well-being goals when completing this section.

Five Ways of Working	How does your proposal demonstrate you have met the five ways of working when developing the proposal?	Are there any additional actions to be taken to better contribute to the five ways of working and/or mitigate any negative impacts? How will you know when this has been achieved?
Long Term - Thinking and planning for the long term, balancing short term and long term needs.	By increasing the spend limit it will further enhance the staff rewards scheme offered by ICOM Rewards making itself competitive and meeting the demand for purchases of bicycles and electric bicycles. Due to the introduction of Agile Working staff who are currently working from home may not wish to take up this offer at this time but will have the opportunity to purchase bicycles at a more appropriate time or if their working arrangement changes in the future.	
Prevention - Preventing problems occurring or getting worse.	Offering a competitive rewards package is key in retaining current staff as well as attracting new employees.	
Integration - Impact on our well-being objectives, national well-being goals and the well-being objectives of other public bodies.		
Collaboration - Acting in collaboration with others inside and outside the Council.	Discussions have been undertaken with the Corporate Management Team. There is no requirement for further consultation on this item	
Involvement - Involving people with an interest in achieving the well-being goals and who reflect the diversity of our communities.	Feedback from staff requesting that we look at increasing spend limit as current limit reduces their choice of bicycle as well as prohibiting them from purchasing any form of electric bicycle. There is no requirement for further consultation on this item.

4. Socio-economic Disadvantage (Strategic Decisions)

Does your proposal impact/deliver better outcomes for those who are experiencing socio-economic disadvantage?

The Socio-economic Duty places a responsibility on the Council to have 'due regard' to how we can reduce inequalities of outcome caused by socio-economic disadvantage when making strategic decisions. This duty gives us an opportunity to do things differently and put tackling inequality at the heart of key decision-making. Socio-economic disadvantage means living on a low income compared to others in Wales, with little or no accumulated wealth, leading to greater material deprivation, restricting the ability to access basic goods and services.
