## 2. Sustainable Development Principles (The Five Ways of Working)

### Does your proposal demonstrate you have met the sustainable development principles (five ways of working)?

The Well-being of Future Generations (Wales) Act 2015 requires the Council to consider how any proposals improve the social, economic, environmental and cultural well-being, whilst also looking to the future, planning for the long term and ensuring that we do not compromise the ability of future generations to meet their own needs. Please consider the national well-being goals when completing this section.

<b>Five Ways of Working</b>	<b>How does your proposal demonstrate you have met the five ways of working when developing the proposal?</b>	<b>Are there any additional actions to be taken to better contribute to the five ways of working and/or mitigate any negative impacts? How will you know when this has been achieved?</b>
<b>Long Term</b> - Thinking and planning for the long term, balancing short term and long term needs.	The policy will ensure that replanting schemes are considered as part of any tree felling to offset the loss of trees to the borough. In order that we can be sure we will have a healthy tree stock within the county borough we have to plan and plant now, Trees take many years to mature and we'll be planting for the benefit of future generations. UK forests currently cover 12% of our land area. This is very low compared to some of our European neighbours the UK is seriously lagging behind and must improve.	
<b>Prevention</b> - Preventing problems occurring or getting worse.	The policy will ensure we are more proactive with inspections being scheduled on a regular basis and by doing so help prevent future accidents and insurance claims against the council.	
<b>Integration</b> - Impact on our well-being objectives, national well-being goals and the well-being objectives of other public bodies.	Better cross departmental working and links with the planning department dealing with Tree Preservation orders.	
<b>Collaboration</b> - Acting in collaboration with others inside and outside the Council.	The Policy will encompass all trees within the county borough. This includes trees in our schools, cemeteries, parks, care homes and open spaces. It will promote better links with other council departments e.g. education, as schools have obligations for health and safety and their management of trees too.	
<b>Involvement</b> - Involving people with an interest in achieving the	The policy will be used by officers and elected members as a guide on queries and complaints and to
