2. Sustainable Development Principles (The Five Ways of Working)

Does your proposal demonstrate you have met the sustainable development principles (five ways of working)?

The Well-being of Future Generations (Wales) Act 2015 requires the Council to consider how any proposals improve the social, economic, environmental and cultural well-being, whilst also looking to the future, planning for the long term and ensuring that we do not compromise the ability of future generations to meet their own needs. Please consider the national well-being goals when completing this section.

Five Ways of Working	How does your proposal demonstrate you have met the five ways of working when developing the proposal?	Are there any additional actions to be taken to better contribute to the five ways of working and/or mitigate any negative impacts? How will you know when this has been achieved?
Long Term - Thinking and planning for the long term, balancing short term and long term needs.	These are required to ensure long term sustainability of the service.	
Prevention - Preventing problems occurring or getting worse.	Through providing sufficient placements for children this will reduce the risk of the LA not meeting its sufficiency duty.	
Integration - Impact on our well-being objectives, national well-being goals and the well-being objectives of other public bodies.	This placement and sufficiency strategy enables the LA to meet legislative demands and the LA's corporate wellbeing goals.	
Collaboration - Acting in collaboration with others inside and outside the Council.	The department has requested feedback from education and health where relevant on these policies.	
Involvement - Involving people with an interest in achieving the well-being goals and who reflect the diversity of our communities.	As above.

The Socio-economic Duty places a responsibility on the Council to have 'due regard' to how we can reduce inequalities of outcome caused by socio-economic disadvantage when making strategic decisions. This duty gives us an opportunity to do things differently and put tackling inequality at the heart of key decision-making. Socio-economic disadvantage means living on a low income compared to others in Wales, with little or no accumulated wealth, leading to greater material deprivation, restricting the ability to access basic goods and services.

Please consider: Single parents and vulnerable families, pensioners, carers, looked after children, single adult households, armed forces community, people with low literacy/numeracy, people who are homeless, people who have experienced the asylum system, students, people of all ages leaving a care setting, people living in the most deprived areas of Wales, people misusing substances, people involved in the criminal justice system, people who are not in education, employment or training.
