## 2. Sustainable Development Principles (The Five Ways of Working)

### Does your proposal demonstrate you have met the sustainable development principles (five ways of working)?

The Well-being of Future Generations (Wales) Act 2015 requires the Council to consider how any proposals improve the social, economic, environmental, and cultural well-being, whilst also looking to the future, planning for the long term and ensuring that we do not compromise the ability of future generations to meet their own needs. Please consider the national well-being goals when completing this section.

<b>Five Ways of Working</b>	<b>How does your proposal demonstrate you have met the five ways of working when developing the proposal?</b>	<b>Are there any additional actions to be taken to better contribute to the five ways of working and/or mitigate any negative impacts? How will you know when this has been achieved?</b>
<b>Long Term</b> - Thinking and planning for the long term, balancing short term and long-term needs.	The well-being plan sets out short and medium term goals that lead to long term advantages. This is tested in assessing design and monitoring outcomes.	The annual self-assessment report is published which sets out the achievements against each of the well-being objectives and how the 5 ways of working have been used, also linking to the national well-being goals.
<b>Prevention</b> - Preventing problems occurring or getting worse.	Questioning (especially at Scrutiny) has been strengthened around this element of the 5 ways of working. This starts to change the culture of design and implementation to deliver prevention. This has been identified as an area to further strengthen as part of workshops between, Officers, Elected Members and Scrutiny Members.	As above.
<b>Integration</b> - Impact on our well-being objectives, national well-being goals and the well-being objectives of other public bodies.	By refocusing and streamlining our well-being objectives clear integration links have been identified. These are being strengthened and used to better deliver our well-being objectives as part of our Recovery, Transformation and Improvement Plan (RTI Plan). This work will continue between Officers, Elected Members and Scrutiny Members.	As above.
<b>Collaboration</b> - Acting in collaboration with others inside and outside the Council.	When programmes, projects and/or actions are being designed and implemented, internal and external collaboration is tested and, where possible adopted. This work will continue as part of our Officer, Elected Member and Scrutiny Member workshops.	As above.
<b>Involvement</b> - Involving people with an interest in achieving the well-being goals and who reflect the diversity of our communities.	Our communities have been involved throughout the development of the well-being objectives (local and regional). This was done through our Cwm Taf Well-being Assessment and Cwm Taf Population Assessment. A key element of monitoring the	As above.

	objectives is via scrutiny committees where the public can be involved. Each objective has a series of projects, where involvement is tested and, where possible it is implemented.

#### 4. Socio-economic Disadvantage (Strategic Decisions)

##### Does your proposal impact/deliver better outcomes for those who are experiencing socio-economic disadvantage?

The Socio-economic Duty places a responsibility on the Council to have ‘due regard’ to how we can reduce inequalities of outcome caused by socio-economic disadvantage when making strategic decisions. This duty gives us an opportunity to do things differently and put tackling inequality at the heart of key decision-making. Socio-economic disadvantage means living on a low income compared to others in Wales, with little or no accumulated wealth, leading to greater material deprivation, restricting the ability to access basic goods and services.

Please consider: Single parents and vulnerable families, pensioners, carers, looked after children, single adult households, armed forces community, people with low literacy/numeracy, people who are homeless, people who have experienced the asylum system, students, people of all ages leaving a care setting, people living in the most deprived areas of Wales, people misusing substances, people involved in the criminal justice system, people who are not in education, employment or training. Please see the guidance document for more information.

	Positive	Negative	Neutral		
<b>Low Income/Income Poverty</b> - Unable to afford to maintain regular payments such as bills, food, clothing, transport, other essential items etc.	X			There will be a positive impact on socio-economic disadvantage. Tackling poverty is a cross-cutting theme within the plan and identifies contributors to tackling poverty and the help available, which contributes to the well-being goals. The coronavirus pandemic has had a big impact on groups and communities, and the plan reflects the work which will be done to prevent further problems arising. The plan focuses on well-being in our community and how we can deliver better outcomes for people. Our RTI Plan has a priority focus on Economic Recovery, that will help address socio-economic disadvantage.	Continue to review the plan and potential impacts. Work closely with communities and groups to enable us to successfully recover from the pandemic and reduce any inequalities of outcome caused by socio-economic disadvantage, which has been heightened by the pandemic. Delivering better outcomes for people is paramount and is a strong focus in the plan. Ensuring that cumulative impacts are also identified and a truly intersectional approach is undertaken.
